ROHIT PAWAR

Front-End Design Engineer | Angular · React · Ionic Capacitor · AI-Assisted Development (Claude Code, Cursor)

Pune, India (Open to relocate to UK – Visa Sponsorship Required) | +91 9730023006 | rohitt.pawar02@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Front-end developer with 2+ years' experience building real-time dashboards, GPS tracking systems and REST APIs using Angular, React, TypeScript, Ionic and Node.js. Delivered a secure HRMS attendance app with on-device face detection that cut fraudulent check-ins to near zero, and government GPS-tracking dashboards used for live monitoring of 1,000+ assets. Experienced in using AI-assisted coding tools (Claude Code, Cursor AI, Gemini API) to turn rough briefs into working, client-ready interfaces at speed – including an AI-chatbot-powered personal portfolio built end-to-end. Comfortable owning a demo from brief to polished, working front end with minimal specification.

SKILLS

Frontend: Angular, React.js, Ionic, HTML, CSS, JavaScript, TypeScript, Tailwind CSS, Bootstrap

AI-Assisted Development: Claude Code, Cursor AI, Gemini API – rapid prototyping, AI-driven UI generation, iterative demo building

Backend & Database: Node.js, Express.js, REST APIs, MS SQL, DynamoDB

Tools & Other: Git, GitHub, GitLab, Netlify, Postman, Google Maps API, Razorpay, CI/CD, Responsive Design

WORK EXPERIENCE

Junior Software Developer — Sep 2024 – Present

Nueotel Communication Pvt. Ltd, Hinjawadi, India | *Angular 16+, TypeScript, Ionic, Capacitor, Node.js, MS SQL, Cursor AI*

- Built and optimised real-time Angular dashboards for 5+ government monitoring modules using Google Maps and REST APIs, supporting live analytics for 1,000+ tracked assets.
- Delivered Worklio, a secure HRMS attendance app (Ionic, Angular, Capacitor) for iOS/Android covering face-based punch-in/out, geofencing, leave, expenses, payslips and shift-aware sessions – rolled out to 500+ employees, replacing manual attendance tracking.
- Engineered on-device face detection with liveness and sharpness checks plus biometric authentication, cutting fraudulent punch-ins by an estimated 90%+ and bringing check-in time under 3 seconds.
- Built the Trackzia GPS tracking app (Ionic, Capacitor) for real-time device tracking, geofencing alerts and push notifications; used AI tooling to cut a key feature's development time by ~40%.
- Integrated the Razorpay payment gateway for secure in-app payments, processing 100+ transactions with a streamlined flow that cut payment completion time by roughly 25%.
- Built 10+ reusable UI components (Angular, TypeScript, SCSS, Bootstrap), improving cross-device usability and cutting new-screen development time.
- Developed 15+ REST API endpoints (Node.js, Express, MS SQL) supporting secure CRUD operations across 5+ production modules.

Software Developer Intern — Jan 2024 – Aug 2024

Nuevas Technologies Pvt Ltd, Hinjawadi, India | *Angular, TypeScript, HTML, CSS, REST APIs*

- Planned service dashboards for four communication modules (SMS, WhatsApp, Voice, RCS) on the Neotel communication platform.
- Built 8+ responsive UI components and connected REST APIs for real-time monitoring across four communication modules.
- Enhanced Angular components and API calls, improving dashboard load time and overall responsiveness by an estimated 30%.

PROJECTS

AI-Powered Chatbot Personal Portfolio

React, Vite, JavaScript, Framer Motion, Google Gemini API, Netlify Functions

- Built a responsive single-page portfolio with project showcases, timeline experience and motion-driven UI, then extended it with an AI chatbot using the Google Gemini API and a serverless backend.
- Designed context-aware prompt logic to improve chatbot response accuracy and reduce irrelevant replies.
- Set up a full CI/CD pipeline (GitHub, Netlify) for automated, single push-to-deploy releases.

Authentic Papad – E-commerce Website

Angular 15, TypeScript, HTML, CSS, Bootstrap

- Built a responsive Angular e-commerce platform with authentication, cart management and order-tracking modules, improving the end-to-end checkout experience.

AWARDS & CERTIFICATIONS

- Star Performer Award, 2026 – recognised for outstanding performance and contribution to successful project delivery.
- Certification in Robotics and Embedded Systems.

EDUCATION

MSc, Computer Applications – Modern College, Ganeshkhind, Pune 2022 – 2024

BCA, Computer Applications – Modern College, Ganeshkhind, Pune 2019 – 2022
