ROHIT PAWAR

Frontend & Full-Stack Developer | Angular · Ionic Capacitor · React · Node.js

9730023006 | rohitt.pawar02@gmail.com | LinkedIn | Pune, India

PROFESSIONAL SUMMARY

Software Developer with 2+ years of experience building real-time dashboards, GPS tracking systems, and REST APIs using Angular, React, TypeScript, Ionic, Node.js, and MS SQL. Shipped a secure HRMS attendance app with on-device face detection that cut fraudulent check-ins to near zero, and a GPS tracking app used for live monitoring across multiple government modules. Built an AI-powered portfolio with a Gemini chatbot and automated CI/CD deployment. Skilled at leveraging AI tools to accelerate development and deliver high-performance solutions.

SKILLS

Frontend: Angular, React.js, Ionic, HTML, CSS, JavaScript, TypeScript, Tailwind CSS, Bootstrap

Backend & Database: Node.js, Express.js, REST APIs, MS SQL, DynamoDB

Tools: Git, GitHub, GitLab, Netlify, Postman, Cursor AI

Other: Google Maps API, Razorpay payment gateway, CI/CD, Gemini API, Responsive Design

WORK EXPERIENCE

Junior Software Developer

09/2024 – Present

Nueotel Communication Pvt. Ltd | Hinjawadi, India

Tech Stack: *Angular 16+, TypeScript, Ionic, Capacitor, Node.js, MS SQL, REST APIs, Google Maps API, Razorpay, Cursor AI*

- Built and optimized real-time Angular dashboards for 5+ government monitoring modules using Google Maps and REST APIs, supporting live analytics for 1,000+ tracked assets.
- Delivered Worklio, a secure HRMS attendance app (Ionic, Angular, Capacitor) for iOS/Android covering face-based punch-in/out, geofencing, leave, expenses, payslips, and shift-aware sessions — rolled out org-wide to 500+ employees, replacing manual attendance tracking.
- Engineered on-device face detection with liveness and sharpness checks plus biometric (Fingerprint/Face ID) authentication, cutting fraudulent punch-ins by an estimated 90%+ and bringing average check-in time under 3 seconds.
- Created the Trackzia GPS tracking app using Ionic and Capacitor for real-time device tracking, geofencing alerts, and push notifications; used AI tooling to cut Cart feature dev time by ~40%.
- Incorporated Razorpay payment gateway for secure in-app digital payments, processing 100+ transactions with a streamlined flow that cut payment completion time by roughly 25%.
- Planned and built 10+ reusable UI components (Angular, TypeScript, HTML, SCSS, Bootstrap), improving cross-device usability and cutting new-screen dev time.
- Developed 15+ REST API endpoints (Node.js, Express, MS SQL) supporting secure CRUD operations across 5+ production modules.

Software Developer Intern

01/2024 – 08/2024

Nuevas Technologies Pvt Ltd | Hinjawadi, India

Tech Stack: *Angular, TypeScript, HTML, CSS, REST APIs*

- Planned service dashboards for 4 communication modules (SMS, WhatsApp, Voice, and RCS) on the Neotel communication platform.
- Built 8+ responsive UI components and connected REST APIs for real-time monitoring across 4 communication modules.
- Enhanced Angular components and API calls, improving dashboard load time and overall responsiveness by an estimated 30%.

PROJECTS

AI-Powered Chatbot Personal Portfolio Website

rohitt-portfolio-react.netlify.app

Tech Stack: *React, Vite, JavaScript, Framer Motion, Google Gemini API, CSS*

- Built a responsive single-page portfolio (React, Vite) with project showcases, timeline experience, and motion-driven UI.
- Incorporated an AI chatbot using Google Gemini API with a serverless backend (Netlify Functions) for real-time interaction.
- Designed context-aware prompt logic, improving chatbot response accuracy and reducing irrelevant replies.
- Set up a CI/CD pipeline (GitHub, Netlify) for fully automated, single push-to-deploy releases.

Authentic Papad – E-commerce Website

Tech Stack: *Angular 15, TypeScript, HTML, CSS, Bootstrap*

- Built a responsive Angular-based e-commerce platform with login, shopping cart, and order history features.
- Delivered three core modules — authentication, cart management, and order tracking — improving end-to-end checkout experience.

AWARDS & CERTIFICATIONS

- Star Performer Award – 2026: Awarded for outstanding performance, strong commitment, and significant contribution to successful project delivery and team collaboration.
- Certification of Robotics and Embedded Systems

EDUCATION

Master of Science in Computer Applications (MSc-CA) — Modern College, Ganeshkhind, Pune *06/2022 – 05/2024*

Bachelor of Computer Applications (BCA) — Modern College, Ganeshkhind, Pune *07/2019 – 04/2022*
