WORK EXPERIENCE

Junior Software Developer

09/2024

Nueotel Communication Pvt. Ltd · Hinjawadi, India

Tech Stack: Angular 16+, TypeScript, Ionic, Capacitor, Node.js, Express.js, MS SQL, REST APIs, Google Maps API, Razorpay, Cursor AI

- Leveraged Cursor AI to build and optimize real-time Angular dashboards for 5+ government monitoring modules, accelerating development speed and improving code quality — integrating Google Maps and live REST APIs for location tracking and analytics.
- Engineered the Trackzia GPS tracking mobile application using Ionic and Capacitor, enabling real-time device tracking, geofencing alerts, and push notifications; used Cursor AI to rapidly implement and optimize the Cart / Add-to-Cart feature within the application.
- Designed 10+ reusable UI components using Angular, TypeScript, HTML, SCSS, and Bootstrap, improving cross-device usability across desktop and mobile platforms.
- Integrated Razorpay payment gateway to enable secure digital payments within the mobile application.
- Delivered the SMW (Solid Waste Management) iOS application for monitoring municipal waste collection vehicles using GPS tracking.
- Developed 15+ REST API endpoints using Node.js and Express, integrated with MS SQL database to support secure CRUD operations and application data management.

Software Developer Intern

01/2024 - 08/2024

Nuevas Technologies Pvt Ltd · Hinjawadi, India

Tech Stack: Angular, TypeScript, HTML, CSS, REST APIs

- Designed service dashboards for 4 communication modules (SMS, WhatsApp, Voice, and RCS) for the Neotel communication platform.
- Built 8+ responsive UI components and integrated REST APIs for real-time monitoring across 4 communication modules.
- Optimized Angular components and API calls to improve dashboard loading performance and responsiveness.

PROJECTS

Personal Portfolio Website — rohitt-portfolio-react.netlify.app

Tech Stack: React, Vite, JavaScript, Framer Motion, CSS

- Developed a responsive single-page portfolio with React and Vite, featuring project showcases, timeline experience, and contact sections with motion-driven UI and mobile navigation.
- Deployed the application to Netlify with a public live URL for recruiters and collaborators.

Authentic Papad – E-commerce Website

Tech Stack: Angular 15, TypeScript, HTML, CSS, Bootstrap

- Developed a responsive Angular-based e-commerce platform with login, shopping cart, and order history features.
- Implemented three core modules including authentication, cart management, and order tracking to improve user experience.

Simulation Of Science Practical, by Vlabs IIT-Bombay

- Built interactive HTML Canvas simulations demonstrating object rotation and animation based on mouse and button events.
- Implemented event-driven object transformations using TypeScript and Canvas APIs.
